Click to Register

In the rapidly evolving landscape of academic research, proficiency in data management and analysis software is crucial for postgraduate students aiming to produce rigorous and impactful research. The Essential Software Skills Workshop is designed to equip Master's and PhD students with hands-on experience in four key software tools that support both qualitative and quantitative research.

This workshop is tailored for postgraduate students who have advanced beyond the proposal stage and are ready to engage in data analysis. Participants will receive comprehensive training on NVivo for qualitative data management. By developing proficiency in these platforms, students will enhance their ability to manage, analyse, and interpret complex data effectively.

Facilitator: Dr Amanda Naledi Gumede

Date: 16 September 2025

Time: 09h00 to 16h00

Venue: K1 & K2, Medical School

MEET THE FACILITATOR

Dr Amanda Naledi Gumede is an academic at UKZN, specifically she is lecturer and undergraduate program coordinator in the Geography department, HC. She holds a BSc in Environmental and Life Sciences, a BScHons in Environmental Science, an MSc in Environmental Science (Cum Laude) and a PhD in Geography and Environmental Science. Dr Gumede has been involved in several multidisciplinary research projects, postgraduate capacity development programs, academic and student development and support programs as well as research administration. Her broad research interests are climate change mitigation and community conservation.
