

The University Teaching and Learning Office

Cordially invites you to a workshop on

Using Canva to enhance your module

16 September 2025

11h00 – 12h00

Virtual via zoom

[CLICK TO REGISTER](#)

OVERVIEW

This webinar is designed for lecturers who want to enhance their teaching materials using Canva. Whether you're a beginner or looking to refine your design skills or improve the look and feel of your module, this session will walk you through how to use Canva's templates, educational elements, and multimedia features to create visually engaging slides, infographics, and other content that supports student learning. We'll also explore ways to align visual design with learning outcomes, improve clarity through layout and structure, and collaborate on shared designs.

By the end of the session, participants will feel more confident using Canva as a teaching tool to support clarity, engagement, and creativity in their modules.

FACILITATOR
Ephina Mashiteng

Ephina Mashiteng is an Instructional and Learning Designer assigned to the College of Agriculture, Engineering and Science at the University of KwaZulu-Natal. With a background in teaching and a passion for technology-enhanced learning, she helps lecturers design and deliver engaging, student-centered content across blended and online platforms. She has experience in supporting academic staff in curriculum development and digital transformation. She specializes in integrating educational technology tools such as Canva, H5P, and Moodle to enhance teaching and learning experiences as well as align curriculum design with learning outcomes and improve the overall learning experience. She is passionate about empowering lecturers to design visually engaging, pedagogically sound content that supports student success. She also facilitates training sessions and webinars that empower lecturers to integrate visual design and multimedia into their teaching.
