Workshop Overview

Securing research funding is crucial for any academic regardless of whether senior or emerging. This immersive grant writing workshop is designed to equip participants with skills and knowledge required for crafting successful grant proposals. Through comprehensive sessions, attendees will learn to identify relevant grant opportunities, strategically develop budgets and work plans, and decipher the key criteria sought by grant reviewers. Moreover, the workshop offers diverse perspectives on the grant process, providing invaluable insights into navigating various funding landscapes. Join us to learn about the process of effective grant writing, empower your research endeavours, and pave the way for future success in securing crucial research funding.

Meet the Facilitators

Professor Andile Khathi leads a research team with a strong focus on prediabetes which is a condition that most people get before becoming developing type 2 diabetes. He serves topic as Editor for 2 of the top 3 journals in his field. He has won numerous awards including the UKZN College of Health Sciences Best Emerging Teacher (2018), the NRF Best Emerging Researcher in Natural Sciences award (2022), ASTRA Research Excellence Award in Human Physiology (2023) and the South African Medical Research Council (SAMRC) Bronze Award for Research Excellence (2024). To date, he has published over 130 peer-reviewed papers, 2 book chapters and graduated 10 PhD, 48 Masters and 61 Honours students.
