Cordially invites you to

Quantitative Research Methodology Workshop

09h00 – 16h00

22 - 23 April
2026

K-rith Tower Building, K1 &
K2, Medical School

ABOUT THE WORKSHOP

Research methodology serves as the cornerstone for fostering innovation and advancement in our world. Join us for a transformative workshop aimed at empowering postgraduate students with a comprehensive understanding of quantitative research methodology.

This workshop equips students with essential tools to navigate the complexities of research. Delve into topics such as identifying research gaps, formulating research questions and problems, crafting robust research designs, and mastering quantitative data collection techniques.

MEET THE FACILITATORS

PROFESSOR ANNAH BENGESAI

Professor Annah Bengesai is a certified Academic Advisor and an established researcher with a National Research Foundation (NRF) rating. She has extensive experience in academic leadership, teaching, and research. Her research expertise spans Population Studies/Demography (social statistics) and Education, with a focus on the determinants of educational attainment as reflected through formal qualifications. She investigates educational outcomes at both the individual and societal levels, including their aggregate dynamics within populations. Prof. Bengesai has published extensively, with many articles appearing in Q1 journals, and was awarded the Teaching Advancement in Universities (TAU) Level 4 fellowship, demonstrating her commitment to advancing teaching excellence in higher education.
