SPSS Research Software Workshop

Date of Event:	12 November 2026
Time of Event:	09h00 – 16h00
Venue	K-rith Tower Building, K2, Medical School
Registration Link:	

REGISTER NOW

WORKSHOP OVERVIEW

In the rapidly evolving landscape of academic research, proficiency in data management and analysis software is crucial for postgraduate students aiming to produce rigorous and impactful research. The Essential Software Skills Workshop is designed to equip Master's and PhD students with hands-on experience in four key software tools that support both qualitative and quantitative research.

This workshop is tailored for postgraduate students who have advanced beyond the proposal stage and are ready to engage in data analysis. Participants will receive comprehensive training on SPSS for quantitative analysis. By developing proficiency in these platforms, students will enhance their ability to manage, analyse, and interpret complex data effectively.

MEET THE FACILITATOR

Dr Tlou has an MSc in Biostatistics and Epidemiology and a PhD in Public Health Medicine from the University of KwaZulu-Natal. His academic career spans more than 10 years, as a Biostatistician, Senior lecturer, and PhD coordinator in the Discipline of Public Health Medicine. He is a Y2-rated researcher under the National Research Foundation's rating standard. His research interests focus on "Child and Maternal Health" and "Statistical Modeling on Spatial Clustering and Survival Analysis. He actively participates in undergraduate and postgraduate medical education. He has supervised multiple master's and doctoral students to completion in Public Health Medicine.

DISCLAIMER

• These events may be photographed and video recorded for marketing, social media and media purposes. • By attending any event, you grant UCDP permission to use and publish any recorded material. • Repeat no-shows may not be given access to future workshops and events. • Workshops with fewer than 10 participants may be cancelled or postponed. UCDP encourages academic debate and discussion that are conducted in a manner that upholds respectful interaction, safety of all involved, and freedom of association as enshrined within the boundaries of UKZN's R.E.A.C.H.T values.
